Your buds are sick men with sick thoughts i think chuds like them should CRY
They should get fucked up in a ban list for the rest they lives
Got homophobes on E-hoe-ji hub that he keep on a monthly starboard
Everything a lie in your upside down world, gatekeepin a feature yall can do on your own
Wrote a hit list for who yall consider chuds, throwing them from what you consider heaven
Stairway to ohio or highway to based island
Because you think that you're all based gigachads
And racism is the peak of hilarity

Dear Jimbo
you may be new to editing but you also new to keys, you dropped em down the drain washed away by auto-starring
mashing songs together as well as water and gas, just cause they the same tempo don't mean it aint ass, Hoe did it take you All Day to cook that shit up?
I'm sorry I still Love Me enough not to star that garbage
What the fuck have you ever done for this community because clearly you wasting my fucking time was always your disposition
Admin and you ain't done shiiiit! You got a special role for playin the bit
I'm sure your veins rushing when you get out of your chair to walk to walgreens
Spreading private messages to stir up shit

Let me give you a government lesson
The people in power decide the outcomes
The winner will tell the history your lying ass
Keepin the people out this community might be gated
Keep the insignificant ones out for us
We keep people like you out for a reason
We are not the type to appease and manipulate
We're sure thats what the foundation of emojihub core is

Dear Frasier
You should ask for more stars, and more stars, and more stars, and more uh**- more stars**
Made fun of that kids mom for dying in palestine i hope you die too
We never wanted this was all fun and games til you done put that dirt on that poor mothers name
"Lock gerald" "Free coolence" how bout you free the door to your room
Do you think it's prejudice cause clearly to you Mexicans dont matter
Only the white ones do
Or the ones with the fat asses cuz they gyatts
Kept fucked up perceptions about women for eons
You got friend removal notifs on hand, feeling
grand for knowin everything, while you quiver at the thought of not rotting your brain
Starin down on the rest of us, yedits social ladder REAL
Why dont you say bye for a change?
Soulseek ain't gonna get you a real job you gotta get on JobSeeker
Acting like you living that Ohio life but really
You might as well be living a childs life as a man
19 and you too busy being a stan over lain, you just fucking lame
When the fuck did you last think about getting paid
do you stan lain? do you fan lain? or are you just some fucking freak for a 14 year old girl?
Got 590gb of her pics, she really the bane of your existence
But you still keep your persistence in fact you keep insisting you love that shit
When you layin (lain) in that Yedits grave, was it worth it
And you dont seem to understand, a shame you seemed an honest man
Taking all us for a serial ride till its dry
Though you dont seem to really be the lyin kind, a shame that we can read yo mind
And you know we don't mean to hurt you but you know that it means so much
And you don't even feel a thing (starred)
You think you part of a straight people oppression? (starred)
Look at you man, you need some help need introspection (starred)
You a miserable man, thats what happens when you got family ties to frasier (starred)
He such a fucking hater (starred)
So when it comes to furries you keep getting frustrated cuz
Furries are just degenerates to you have you looked in a mirror? you sick fuck
I hate how when you breathe you get starred

I hope your ass just gets barred
You think you a bud but you really just a chud (pronounce this to rhyme w starred)
You said hi to the buds (starred)
You said hi to Lain (starred)
You said hi to the starboard and the buds who star you (5 stars)
You said hi to the ‘Craft (starred)
You said hi to your clique
You cant say hi to a chick
And if you got a head then i'm sure that brain is thick
And if you find out you’ll start bannin
We band together cause we got tired of your ass
